Reed Diffuser Base

Our custom formulated reed diffuser oil base has been designed to give off maximum scent with most fragrance oils. Unlike Dipropylene Glycol, which is heavier than water, our diffuser base is a low viscosity product that is lighter than water. Simply blend your favorite fragrance oil with diffuser base, insert the reeds, and wait for the fragrance to permeate the room. Normal mix ratios are between 20% to 40% fragrance oil and 60% to 80% reed diffuser base.

Enhanced Diffuser Oil

This is our new Enhanced Reed Diffuser Base oil which provides better throw for your fragrance oils
